**DETAILED ACTION**

***Drawings***

1. The drawings received on 1/07/2010 are acceptable.

***Allowable Subject Matter***

2. Claims 1-36 are allowed.
3. The following is an examiner's statement of reasons for allowance:

After further search and consideration of Applicant's amendment filed on 01/17/2010, it is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: “a light-dependent device for detecting the brightness of the display element; wherein the driver circuitry further comprises processing means for processing brightness signals from the light-dependent devices of each pixel, wherein the processing means is adapted to derive from a plurality of different brightness signals from each pixel a threshold voltage for the drive transistor of the pixel and information relating to the performance of the display element” as claimed in claim 1; and “driving the display elements of each pixel to a plurality of different predetermined drive levels, and processing brightness signals from the light-dependent devices of each pixel for each of the plurality of different predetermined drive levels; and deriving threshold voltage and information relating to the performance of the display element from the brightness signals” as claimed in claim 21. It is for this reasons in combination with all the other limitations in the independent claims 1 and 21, that claims 1-36 are allowable over prior art of record.

Art Unit: 2821

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
